Editorials

Toxicological Reviews: A New Review Journal Devoted to Human Toxicology — 1

The Human Toxicology of Polychlorinated Biphenyls: 209 Isomers in Search of a Disease — 201-202

Review Articles

Pentachlorophenol Poisoning — 3-11
AT Proudfoot

Occupational Methaemoglobinaemia: Mechanisms of Production, Features, Diagnosis and Management Including the Use of Methylene Blue — 13-27
SM Bradberry

Thallium Toxicity and the Role of Prussian Blue in Therapy — 29-40
RS Hoffman

Health Implications of Exposure to Environmental Nitrogenous Compounds — 41-51
TT Mensinga, GJA Speijers, J Meulenbelt

Ricin: Mechanisms of Cytotoxicity — 53-64
MJ Lord, NA Jolliffe, CJ Marsden, CSC Pateman, DC Smith, RA Spooner, PD Watson, LM Roberts

Ricin Poisoning — 65-70
SM Bradberry, KJ Dickers, P Rice, GD Griffiths, JA Vale

Poisoning with Amitraz — 71-74
AT Proudfoot

Biopesticides — 83-90
DL Sudakin

Is There a Causal Relationship Between Exposure to Diesel Exhaust and Multiple Myeloma? — 91-102
O Wong

Tear Gases and Irritant Incapacitants: 1-Chloroacetophenone, 2-Chlorobenzylidene Malononitrile and Dibenz-1,4-Oxazepine — 103-110
PG Blain

Sulphur Mustard Injuries of the Skin: Pathophysiology and Management — 111-118
P Rice

Does Urine Alkalinization Increase Salicylate Elimination? If so, Why? — 129-136
AT Proudfoot, EP Krenzelok, J Brent, JA Vale

Abrin Poisoning — 137-142
KJ Dickers, SM Bradberry, P Rice, GD Griffiths, JA Vale

Human Parathion Poisoning: A Toxicokinetic Analysis — 143-163
F Eyer, V Meischner, D Kiderlen, H Thiermann, F Worek, M Haberkorn, N Felgenhauer, T Zilker, P Eyer

The Role of Oximes in the Management of Organophosphorus Pesticide Poisoning — 165-190
P Eyer

Pharmacokinetics and Blood Levels of Polychlorinated Biphenyls **203-215**
M Lotti

Human Exposure to Polychlorinated Biphenyls and Health Effects: A Critical Synopsis **217-233**
RD Kimbrough, CA Krouskas

Idiopathic Environmental Intolerance: Part 1: A Causation Analysis Applying Bradford Hill's Criteria to the Toxicogenic Theory **235-246**
H Staudenmayer, KE Binkley, A Leznoff, S Phillips

Idiopathic Environmental Intolerance: Part 2: A Causation Analysis Applying Bradford Hill's Criteria to the Psychogenic Theory **247-261**
H Staudenmayer, KE Binkley, A Leznoff, S Phillips

From the World Literature

Pharmaceutical Drug Overdose Case Reports **119-128**
Pharmaceutical Drug Overdose Case Reports **191-197**

Toxicological Reviews

1176-2551/03/0004-0265/$30.00/0 © Adis Data Information BV 2003. All rights reserved.

Abrin
Dickers KJ, Bradberry SM, Rice P, et al. Abrin poisoning. 22 (3): 129-136

Amitraz
Proudfoot AT. Poisoning with amitraz. 22 (2): 71-74

Biopesticides
Sudakin DL. Biopesticides. 22 (2): 83-90

Chloroacetophenone
Blain PG. Tear gases and irritant incapacitants: 1-chloroacetophenone, 2-chlorobenzylidene malononitrile and dibenz-1,4-oxazepine. 22 (2): 103-110

Chlorobenzylidene malononitrile
Blain PG. Tear gases and irritant incapacitants: 1-chloroacetophenone, 2-chlorobenzylidene malononitrile and dibenz-1,4-oxazepine. 22 (2): 103-110

Diazepam
Marrs TC. Diazepam in the treatment of organophosphorus ester pesticide poisoning. 22 (2): 75-81

Dibenzoxazepine
Blain PG. Tear gases and irritant incapacitants: 1-chloroacetophenone, 2-chlorobenzylidene malononitrile and dibenz-1,4-oxazepine. 22 (2): 103-110

Diesel exhaust
Wong O. Is there a causal relationship between exposure to diesel exhaust and multiple myeloma? 22 (2): 91-102

Environmental toxicology
Kimbrough RD, Krouskas CA. Human exposure to polychlorinated biphenyls and health effects: a critical synopsis. 22 (4): 217-233
Mensinga TT, Speijers GJA, Meulenbelt J. Health implications of exposure to environmental nitrogenous compounds. 22 (1): 41-51

Idiopathic environmental intolerance
Staudenmayer H, Binkley KE, Leznoff A, et al. Idiopathic environmental intolerance: part 1: a causation analysis applying bradford hill's criteria to the toxicogenic theory. 22 (4): 235-246
Staudenmayer H, Binkley KE, Leznoff A, et al. Idiopathic environmental intolerance: part 2: a causation analysis applying bradford hill's criteria to the psychogenic theory. 22 (4): 247-261

Methaemoglobinaemia
Bradberry SM. Occupational methaemoglobinaemia: mechanisms of production, features, diagnosis and management including the use of methylene blue. 22 (1): 13-27

Methylene blue (methylthioninium chloride)
Bradberry SM. Occupational methaemoglobinaemia: mechanisms of production, features, diagnosis and management including the use of methylene blue. 22 (1): 13-27

Mustard gas
Rice P. Sulphur mustard injuries of the skin: pathophysiology and management. 22 (2): 111-118

Nitrates
Mensinga TT, Speijers GJA, Meulenbelt J. Health implications of exposure to environmental nitrogenous compounds. 22 (1): 41-51

Nitrites
Mensinga TT, Speijers GJA, Meulenbelt J. Health implications of exposure to environmental nitrogenous compounds. 22 (1): 41-51

Occupational toxicology
Bradberry SM. Occupational methaemoglobinaemia: mechanisms of production, features, diagnosis and management including the use of methylene blue. 22 (1): 13-27

Organophosphorus pesticides
Eyer P. The role of oximes in the management of organophosphorus pesticide poisoning. 22 (3): 165-190
Marrs TC. Diazepam in the treatment of organophosphorus ester pesticide poisoning. 22 (2): 75-81

Oximes
Eyer P. The role of oximes in the management of organophosphorus pesticide poisoning. 22 (3): 165-190

Parathion
Eyer F, Meischner V, Kiderlen D, et al. Human parathion poisoning: a toxicokinetic analysis. 22 (3): 143-163

Pentachlorophenol
Proudfoot AT. Pentachlorophenol poisoning. 22 (1): 3-11

Pesticides
Eyer F, Meischner V, Kiderlen D, et al. Human parathion poisoning: a toxicokinetic analysis. 22 (3): 143-163
Eyer P. The role of oximes in the management of organophosphorus pesticide poisoning. 22 (3): 165-190
Marrs TC. Diazepam in the treatment of organophosphorus ester pesticide poisoning. 22 (2): 75-81
Proudfoot AT. Pentachlorophenol poisoning. 22 (1): 3-11
Proudfoot AT. Poisoning with amitraz. 22 (2): 71-74
Sudakin DL. Biopesticides. 22 (2): 83-90

Poisoning
Anon. Pharmaceutical drug overdose case reports. 22 (2): 119-128
Anon. Pharmaceutical drug overdose case reports. 22 (3): 191-197

Polychlorinated biphenyls
Brent J, Vale A. The human toxicology of polychlorinated biphenyls: 209 isomers in search of a disease. 22 (4): 201-202
Kimbrough RD, Krouskas CA. Human exposure to polychlorinated biphenyls and health effects: a critical synopsis. 22 (4): 217-233
Lotti M. Pharmacokinetics and blood levels of polychlorinated biphenyls. 22 (4): 203-215

Prussian blue
Hoffman RS. Thallium toxicity and the role of prussian blue in therapy. 22 (1): 29-40

Ricin
Bradberry SM, Dickers KJ, Rice P, et al. Ricin poisoning. 22 (1): 65-70
Lord MJ, Jolliffe NA, Marsden CJ, et al. Ricin: mechanisms of cytotoxicity. 22 (1): 53-64

Sulphur mustard
Rice P. Sulphur mustard injuries of the skin: pathophysiology and management. 22 (2): 111-118

Tear gases
Blain PG. Tear gases and irritant incapacitants: 1-chloroacetophenone, 2-chlorobenzylidene malononitrile and dibenz-1,4-oxazepine. 22 (2): 103-110

Thallium
Hoffman RS. Thallium toxicity and the role of prussian blue in therapy. 22 (1): 29-40

Toxicokinetics
Eyer F, Meischner V, Kiderlen D, et al. Human parathion poisoning: a toxicokinetic analysis. 22 (3): 143-163
Lotti M. Pharmacokinetics and blood levels of polychlorinated biphenyls. 22 (4): 203-215

Urine alkalinization
Proudfoot AT, Krenzelok EP, Brent J, et al. Does urine alkalinization increase salicylate elimination?: if so, why? 22 (3): 129-136
